Guide

SUMMER | 2021

A FOSSIL TRACE GOLF EXPERIENCE IS **UNLIKE ANY OTHER**

Located in historic Golden, Colorado; Fossil Trace is nestled adjacent to the foothills of the Rocky Mountain Front Range and only 20 minutes from downtown Denver. Tournament guests appreciate the short trip to an extraordinary and

AUTHENTIC COLORADO GOLF EXPERIENCE.

Players marvel at the variety of holes, both short and long, undulating fairways, and a mountain course feel in a spectacular urban setting.

The golf course opened in July 2003, and has become affectionately known as "Colorado's Home Course." Approximately 64 million years ago, dinosaurs walked where holes #11 through #15 now sit. Triceratops tracks, as well as other prehistoric trace fossils, can be viewed adjacent to the signature Par 5 12th hole. In addition to prehistoric relics at Fossil Trace Golf Club, several massive remnants of clay mining equipment can be seen throughout the golf course layout. Golf memories are made at Fossil Trace Golf Club.
